

FITTED FURNITURE

Fitted Furniture Optimization is broadly set in terms Construction Type, Cabinet Material, Shutter Core and Shutter Finish. With respect to Fitted Furniture, First set of Optimization should happen in terms of Construction Type, second in terms Cabinet Material Optimization, then third in terms Shutter Core and finally Shutter Finish. Rule sets for all four is set below.

1. Construction Type

The following Categories and Sub-Category under Fitted Furniture, the values can be optimized by 10% by changing the construction type to Fusion for all SKUs except for the following Fillers, Removable Shelf, Counter top, Skirting, Wall Panel, Wall Panel Frame, Exposed Panels, Loft Frame and Shutter and Wardrobe Loft Base Panel.

The categories with Fusion alternatives are as follows:

1. Storage | Entertainment Unit
2. Storage | Crockery Unit
3. Storage | Foyer Unit
4. Wardrobe | Hinged
5. Wardrobe | Sliding-Inset
6. Wardrobe | Floor-to-Ceiling.
7. Floor Standing Vanity Unit
8. Suspended Vanity Unit

2. Cabinet Material | Colour

1.Price Tiering is as follows:

BWP Ply > Hydrogard Plus HDF > Prelam BWR Ply or Prelam Comply > Aqua shield MDF-R or Prelam Hydrogard Plus-HDF > Prelam Aqua shield MDF-Cir-BSL or Prelam Hydrogard Plus-HDF or Aqua Shield-MDF-R or Prelam Aqua shield MDF-R.

2. Below Table shows the pricing difference for Cabinet Material with different Core Material in terms of reduction from BWP Ply. Please suggest only upto two tiers down and not more than that. For example, if BWP Ply is 100, Hydrogaud plus HDF is (.85*100), likewise Prelam BWR Ply/ Prelam Core is (.75*100) from BWP Ply and .89 of Hydrogaud Plus HDF.

BWP Ply	Hydrogaurd Plus HDF	Prelam BWR Ply/ Prelam Comply	Aqua shield MDF-R/ Prelam Hydrogaurd Plus-HDF	Prelam Aqua shield MDF-Clr-BSL/ Prelam Hydrogaurd Plus-HDF/ Aqua Shield-MDF-R	Prelam Aqua shield MDF-R
100%	85%	75%	66%	60%	49%

3. Below Table will show the availability of the Cabinat Material based on the Room Type, Category and Sub-category under Fitted Furniture. If any Core material is disabled, We can skip suggesting it for the particular sub-category but need to two tiers down by skipping the disabled option.

3. Shutter Finish & Core | Colour

- Under Shutter Finish & Core, First Optimize for Colour within the same Finish. Please suggest optimization through alternatives which are less priced. Second Range of suggestions would be to optimize different finishes based on the price tiering as follows:
PU OSL > Membrane OSL > Acrylic OSL > Postlam > Prelam.
- Price difference can be picked from Columnn "Percentage of Price difference from Max" based on the Pricing Group. For Example, Pricing Group 1 is .17 times Pricing Group 15. Please suggest alternatives two upto 3 levels down.
- Number of shades available can be shown as visibility for designers.

Shutter Options Use Case	Class	Description	BSP	Shades Available	Pricing Group	Percentage of Price difference from Max

2. Final set of suggestions should come for Shutter Finish. Please refer to the rule sets below and grid for Finish vs Core Material availability.

a. If Shutter Finish mentions Membrane, the Core Material can only be MDF under Shutter Finish & Core.

b. If Shutter Finish mentions Acrylic OSL, the Core Material can only be HDHMR under Shutter Finish & Core.

c. If Shutter finish mentions PU OSL, the Core Material can only be HDHMR under Shutter Finish & Core.

d. Please refer to the check box and ideally suggest basis that changes for Laminate.

e. If Aluminium Glass Shutter is there on quote we can optimize to 19mm Alu Profile which will give us a savings of 10%.

Finishes with Core Material							
Finish	MDF	MDF-R	HDHMR	Hydrogard Plus HDF	BWP Ply	Aluminium Glass Shutter	19mm Alu Profile

Appliances & Decor

Under Appliances & Decor Category, Woodwork Lighting and HDS Lighting can be optimized with respect to brand. The Price Tiering is as follows:
Philips > Wipro > Orient. The difference in pricing is as mentioned below.

Under Loose Furniture Category, the total value should not go past the AOV in the below grid with respect to City and Property Config. Suggestion to be to limit the Category value to the AOV as per below table. If the table, doesnt have the required details, Loose Furniture can be the same value and do not suggest optimization.

Services

Counter top services

For Counter top services under Services, the optimisation can follow the below grid and pick basis the SKU added, Percentages below are difference from highest value SKU. Installation of Countertop with Backsplash and 40mm Nosing (Granite / Quartz) > Installation of Countertop without Backsplash and 40mm Nosing (Granite / Quartz) > Installation of Countertop with Backsplash and 20mm Nosing (Granite / Quartz) > Installation of Countertop without Backsplash and 20mm Nosing (Granite / Quartz).

Installation of Countertop with Backsplash and 40mm Nosing (Granite / Quartz)	Installation of Countertop without Backsplash and 40mm Nosing (Granite / Quartz)	Installation of Countertop with Backsplash and 20mm Nosing (Granite / Quartz)	Installation of Countertop without Backsplash and 20mm Nosing (Granite / Quartz)
100%	95%	80%	75%

Counter top Material

For Counter top material under Services, the optimisation can follow the below grid. Percentages below are difference from highest value SKU. Kalinga > Camrola or AGL > Granite.

Kalinga	Camrola or AGL	Granite
100%	90%	50%

Painting

For Painting Under Services Category, the following are the rule sets for Optimization.

1. First Check for Total Painting Area. Please pick the TOTAL BUILT-UP AREA from the quote's first sheet and convert it into Carpet area which is 75% of Built Up Area. Painting Quantity(sft) to be 3x of Carpet area if False Ceiling is not added or False ceiling with Paint SKU is added. If False Ceiling is
2. If there is considerable amount of Electrical services Scope of Work, then 40% x 3 x Carpet Area for Fresh Painting and 60% x 3 x Carpet Area for Re-painting.
3. Third Set of Optimization can be as follows: Royale (e.g., Aspira, Giltz, Shyne, Matt, Luxury, Lusture) > Apcolite (e.g., Premium Emulsion, Satin, All Protek) > Tractor (e.g., Emulsion, Shyne, Sparc). Please check for these Keywords in Product Name. Percentages below are difference from highest v

Product Series	Ideal Room Applications	Price
Royale (e.g., Aspira, Giltz, Shyne, Matt, Luxury, Lusture)	Living rooms, master bedrooms, kids' rooms, kitchens, and bathrooms – anywhere you need the best quality, highest durability, and premium finish.	100%
Apcolite (e.g., Premium Emulsion, Satin, All Protek)	Functional areas, hallways, kitchens, and kids' rooms, balancing cost and quality for everyday use.	80%
Tractor (e.g., Emulsion, Shyne, Sparc)	Rental properties or low-traffic areas like guest bedrooms and ceilings, where budget is a primary concern and washability is less critical.	70%

Electrical Services

For Electrical under Services Category, the following are the optimization rules sets.

- 1.Please pick the Electrical Package from the below table basis City and Property Config. If False ceiling is there in scope, False Ceiling Electrical to be picked or else Basic Electrical to be picked.

Electrical	1BHK		2BHK		3BHK		4BHK	
City	Basic Electrical	False Ceiling Electrical	Basic Electrical	False Ceiling Electrical	Basic Electrical	False Ceiling Electrical	Basic Electrical	False Ceiling Electrical
